

ReVuE: On-Policy Visual Evidence Distillation

Overview

Agentic Vision

Question: What is the plate number of the blue car in the picture?

Visual Evidence

`<think>`To determine the plate number of the blue car in the image, we need to focus on the license plate located near the bottom front of the vehicle...Here is the **Python code** to crop and zoom in on the license plate area:`</think>`

```
<code>import cv2 ...
resized_image = cv2.resize(cropped_image, ...) ...
print(processed_path)</code>
```

- Observe faithfully
- Bind correctly
- Integrate consistently

`<think>`Upon examining the cropped and zoomed-in image of the license plate, it becomes clear that the characters are "S QT 911". This matches option C.`</think>`

- Align answer with the question
- Map the fact correctly to the option
- Answer consistent with the CoT trace

Options:

A. S QT 911 B. STQ 119 C. S QT 911 D. B QT 119
E. This image doesn't feature the plate number.

Please select the correct answer from the options above

`<answer>`Therefore, the correct answer is C.`</answer>`
